2018-2019 Library Staff with College Degrees

"You like disruption and innovation. You have great ideas about libraries and want to help create an exceptional academic library in today's fast-paced technological learning environment. You want to engage library users through face-to-face information literacy instruction, online tutorials, and social media. You want to serve as a role model for students from diverse backgrounds. You want to work collaboratively with a small team of librarians in a place where you can make a difference."

The Strategic Planning Process: 2019-2023

The duPont-Ball librarians and staff met many times during the 2018-2019 academic year to develop our Strategic Plan.

Our work included:

- Reviewing the University's Roll-Ahead Strategic Goals
- Reviewing Academic Affairs' work on distinctives and the Value of a Stetson Education
- Reviewing the Library's mission statement
- Reviewing our three broad areas of focus: Teaching and Lifelong Learning, Collaboration, and Innovation
- Refining goals for each area of focus
- Identifying specific action plans to address goals
- Creating a duPont-Ball Library Strategic Map, 2019-2023
- Developing desired outputs and measures of assessment
